

# EduClick

## Highly Interactive Remote Instruction System

### The EduClick System

EduClick is a set of in-class learning tool that uses Infrared technology to improve the learning process and to enhance real-time interaction. Through the EduClick software, instructors design and project to the screen media-rich multiple-choice questions. Individuals response by their assigned remote controls. The results are immediately available to the instructors. This function frees instructors from grading papers and compiling statistics. EduClick meets the rising demand for technology in teaching and learning. It's helpful, valuable and a must educational tool.

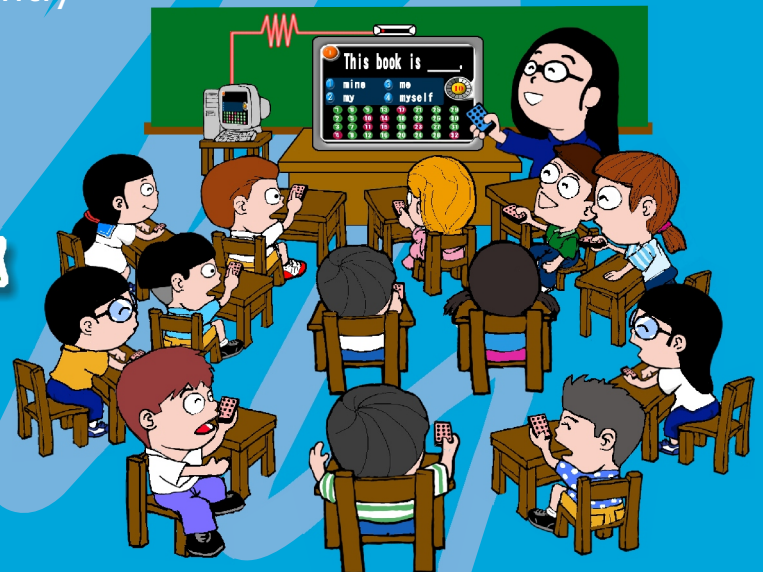

### Features of the EduClick

- Integrates IT into study
- Enhances interaction in class
- Obtains feedback immediately
- Engages the class
- Grades and tallies answers instantly
- Encourages participation
- Media-rich questions
- 7 statistic report forms

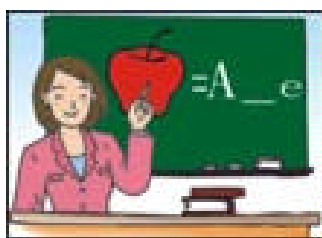

### Main purposes of the EduClick

- Formative evaluations
- Tests and quizzes
- Balloting
- Surveys
- Group contest
- CBT(computer-based training) in corporations
- Remote control for powerpoint presentations
